Introduction

Demands on HE to adapt & change

- Policies & strategies (**SDG**)
- Responsibility to ensure **quality provision** and services
- **SCL, flexible**, interdisciplinarity
- **Stronger engagement with society**

QA supporting HEIs

- **Standards and guidelines (ESG)**
- QA Agencies and supranational structures (ENQA, EQAR)
- **Flexible internal and external QA** (respond to the needs and changes)

Micro-credentials. What? Why? How?

What?

Why?

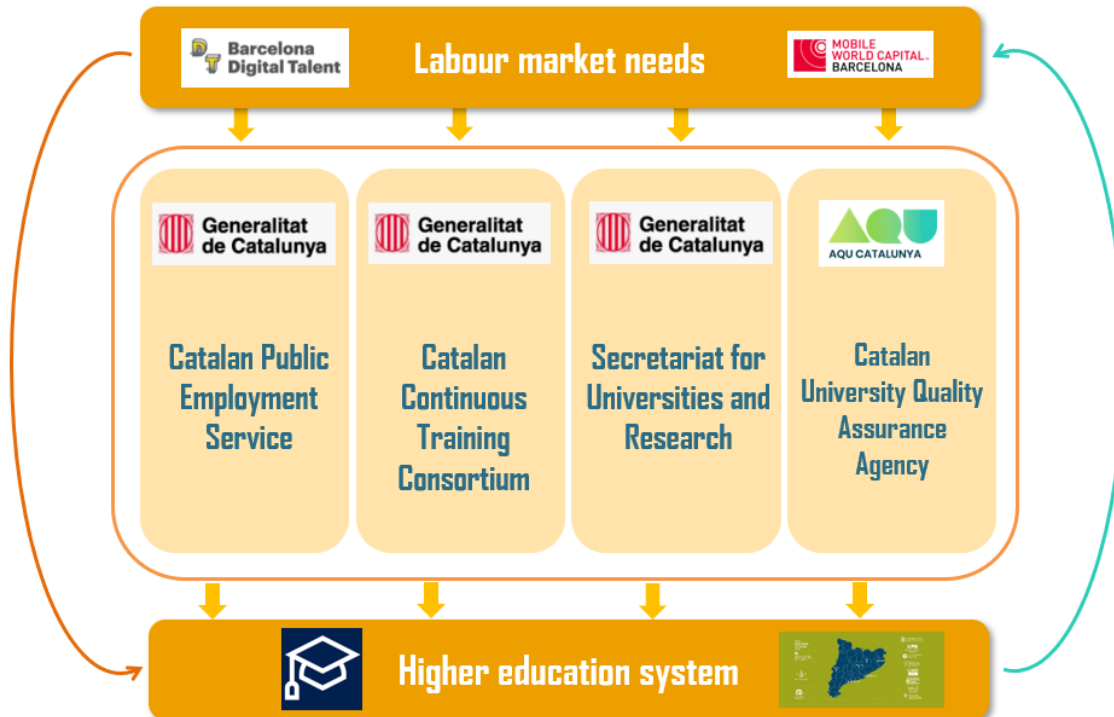

How?

- Quality (internal / external QA)
- Transparency (ECTS, QF, Information)
- Relevance (LO, labour market)
- Valid assessment
- Flexible learning pathways
- Recognition
- Portability
- Learner-centred
- Authenticity
- Information and guidance

Micro-credentials. What? Why? How?

- **P**rofessional qualifications in the occupation.
- **R**esponse to labour market needs. (Transition towards digitalization and green economy)
- **I**mprovement of skills (workforce).
- **P**athway between HE and professional system.

Automotive &
sustainable mobility

- **Strong applicability (occupational character)**
- **Level 6 and 7 of EQF**
- **ECTS: 4 – 30**
- **Recognition in official degrees**
- **Provider: HEI**
- **Quality assurance: ex-ante evaluation (programme level), but moving to institutional evaluation (IQAS)**

C10. Does your agency/organisation currently QA MC?

- YES
- NOT currently, but approach is being developed
- NOT currently, but intended to in the future
- NO and not intending to
- Don't Know

C11. When do you expect to start QA of MC?

- In the next 1-2 years, i.e. starting with 2023/2024
- In the next 3-4 years, i.e. from 2025 onwards
- NOT sooner than five years
- Don't know
- N/A

*“ESG [...] provide **guidance**, covering the areas which are vital for **successful quality provision and learning environments in higher education**”.*

*[...] The term “programme” in these standards refers to higher education provision in its broadest sense, including provision that is **not part of a programme leading to a formal degree.**”*

Geere A.; Provijn, D.; Hedbjörk, U.; Seppman, G. (ENQA, 2022)

GENERAL FINDINGS

- Reassurance for the quality of MCs is important
- How to gain reassurances can be context-dependent and will consider existing QA arrangements
- Capturing MCs in external quality assurance processes has benefits
- Tools for recognition must be in place
- Models for stackability must be developed
- Combination between online, blended and face-to-face modalities must be explored

Geere A.; Provijn, D.; Hedbjörk, U.; Seppman, G. (ENQA, 2022)

CONCLUSION

- Robust internal QA policy and processes crucial
- Programme level evaluation not encouraged
- Lifelong learning becomes more important to HEIs and should be made a topic in QA ('lifelong learning mainstreaming')
- MCs might develop the role of quality assurance agencies towards an even more supportive role beyond the assessment of compliance
- MCs might also develop the role of quality assurance agencies towards more cross-border and transnational activity

Geere A.; Provijn, D.; Hedbjörk, U.; Seppman, G. (ENQA, 2022)

FOR THE FUTURE...

- More thinking on integration of LLL
- More effort into models for recognition and stackability
- More consideration of dynamics between various types of providers
- (Maybe) more visionary approaches for quality assurance agencies
- ...

- Programme evaluation.
 - Ex-ante evaluation.
 - ESG
 - **ESG 1.2** – design & approval of programmes
 - **ESG 1.3** – SCL, teaching & assessment
 - **ESG 1.5** – Teaching staff

SLP – AQU Catalunya. Assessment dimensions

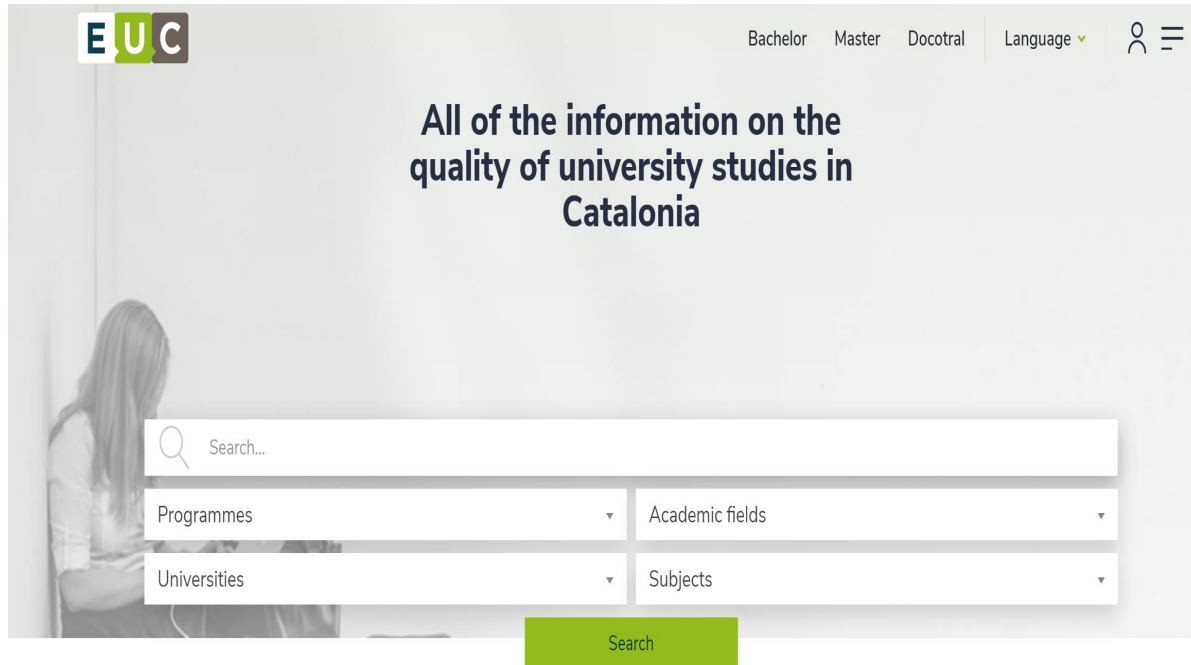

1. **Description of SLP:** university, name of SLP, EQF level, relationship with the professional family, ECTS, mode of delivery, offer
2. **Rationale:** relevance of the program to labour market, and potential of the institution to deliver the programme
3. **Aims and learning outcomes**
4. **Student access, admission & student support**
5. **Planning of SLP:** structure of the curriculum, modules, LO.
6. **Teaching and support staff**
7. **Material resources and services**
8. **IQAS**

SLP – AQU Catalunya. Conclusions I

- **High complexity** in the management of requests (duplication of information; high bureaucracy).
- Lack of attention to the **uniqueness** of universities
- Problems in **recruiting** and **completing** students.
- Special attention to guarantee the **NQF level**.
- **Workload associated to external review** and the short period of time life of SLP, another strategy more focused on the **IQAS**.

SLP – AQU Catalunya. Conclusions II

- ✓ High commitment from universities.
- ✓ Pathway between HE and professional system.
- ✓ Be part of the vocational training programs subsidized by the public employment service.

But...

- Adjust and align the way of working between universities and employment services, making processes more flexible and recognizing the way of working of universities.
- Establish a common language.
- Simpler external review procedures.

The future....

The Universities of the future will be more **open, transparent and flexible** institutions. They will be better adapted to a **constantly changing landscape**.
